This software can be used by students to ensure the originality of academic writing and check all of the sources used have been cited correctly. The use of this software in a course is at the discretion of faculty. The software works by comparing text with documents submitted by other students, published works, and a range of other sources including online text and generates an originality report. Submissions are stored on a server in the United States and subject to potential review. The software does not make academic judgements about plagiarism; faculty will evaluate the originality report together with the submitted text and decisions about plagiarism will be made in accordance with Tyndale's academic policy. For some courses, faculty may ask students to submit their written work for text matching as part of the assessment process.
